

Natural Gas: Is this 'neglected' sector due for a short-covering bounce amidst the commodity bull market?

Weekly: Despite less than sanguine fundamentals, is there a chance for a seasonal recovery?

- Commercials have been amassing long positions for the last 2 years. (Often in the form of 'swap' agreements.)
- 'Stochs' have turned up.

Daily: Retracement bounce?

- MACD trying to turn up.
- Fast 'Stochs' stabilizing after down & up spikes of last 2 Mondays; on the verge of turning up again?
- Spreads are also trying to turn up?
