

TSE 60: Daily: Support levels succumbing to selling pressures.

\$TXSX - TSX 60 Index - Daily Candlestick Chart

Observations on current downtrend:

- Daily Technicals are down.
- 870 -868 area was minor Support till last week when breached: 6 weeks of lows taken out along with Gann *2x1* six month uptrend; now this level becomes near-term Resistance.
- Will current 855 Support ultimately give way?
